USING YOUR 2006 NUMISMATIC DEALER DIRECTORY

Your **2006 NDD** provides two ways to look-up coin dealers. The first section is a cross-referenced, alphabetical listing by last name or company name (**CAPITALIZED** listings). Personal names are followed by their state & company name. When the company name is the same as the numismatist's name, you will be able to locate them either way. For example, Julian M. Leidman will have two cross-references: 1) Under **J**, look for "JULIAN M. LEIDMAN" to find the company name, state, & telephone number; and 2) Under **L**, "Leidman, Julian M., MD, Julian M. Leidman" gives you his personal name, his state, his company name, and telephone number.

The second section is arranged by state, and therein alphabetically by *company* name (names such as *I-A Coin Co.* or *A&B Coin Co.* start each new state). If you know the state & *company* name, those listings contain the full mailing address and telephone numbers. When an individual's name is also the company name, **keep in mind that the listing will be alphabetical using the first name**. For example, the address of the *company* "Julian M. Leidman" can be found in Maryland under the first letter "**J**". Within the second section, we have highlighted our advertisers with blue ink. We encourage you to read all advertisements; they contain important information, and this directory would not be possible without their support. These leading dealers are sure that this directory will be one of your most useful numismatic tools. The advertising index will direct you to the various advertising categories. The cross-references in red ink will direct you to advertisements under related categories.

We hope that you find the **2006 Numismatic Dealer Directory** to be a useful tool throughout the year. And please don't forget to send in any updated information as soon as possible. If you do not refresh your information, you may be deleted from future issues. Also, please delete any persons no longer employed by your company.

PUBLISHER'S STATEMENT OF COPYRIGHT & LIMITATION OF LIABILITY

Reproduction of any part of the **2006 Numismatic Dealer Directory** without written permission of the **Coin Dealer Newsletter** is a violation of copyright law and is specifically prohibited. The **CDN** will strictly respond to any and all violations of the **CDN** copyright.

Every precaution has been taken to avoid errors and omissions in the **2006 Numismatic Dealer Directory**, both in the directory listings and in the display advertisements. The **Coin Dealer Newsletter** expressly rejects any liability for errors in the listings due to incomplete, inaccurate, or omitted information. If you do not refresh your information by responding to our mailings, you may be deleted from future issues. The **2006 NDD** listings have been updated to the best of our ability based upon your returned cards, plus the most recent public data available. If your name was removed from the **2006 NDD**, you will need to submit a listing request form (found in the directory) to be reinstated in the database. If any listing is incorrect, please notify us as soon as possible so that we can update our files. This will also help you — should we receive an inquiry, we can provide the corrected information. Please send us one of the listing request forms whenever your information changes — and remember that many new telephone Area Codes are being created.

Every precaution has also been taken to correctly include all display advertising. Should any error have occurred, an advertiser is limited in recovering for any loss or omission to a pro-rata abatement of the charge paid for such advertising in the proportion that the error reduces the value of the entire advertisement. In no event shall such recovery exceed the amount paid to the **Coin Dealer Newsletter**. An advertiser can substantially avoid the risk of errors or omissions by submitting camera-ready copy, which we encourage for all display advertising.

Note to consumers: The **2006 Numismatic Dealer Directory** has been prepared for the dealer community. As consumers, only you can decide what services or products best meet your needs. The inclusion of any dealer, either in the listings or advertisements, is *not* an endorsement of the individuals concerned, their companies, business practices, services, or products. Furthermore, you should be aware that advertisers are subject to various local, state, and federal laws and regulations; the enforcement of such laws and regulations is the responsibility of the appropriate agencies.

Introducing the boldest, most courageous coin book ever... **THE COIN COLLECTOR'S SURVIVAL MANUAL® FIFTH EDITION** by Scott A. Travers

"The most important coin book ever written... a spectacular *tour de force* that surely will be proclaimed an instant classic – and undoubtedly will stand for years to come as the gold standard for coin books on consumer protection and investment." –Ed Reiter, Senior Editor, *COINage*

Consumer advocate Scott A. Travers, reveals trade secrets on how you can make money and avoid even the smallest mistakes in the rare coin marketplace in his new Random House book. This straight-forward guide candidly examines grading controversies and the popularity of registry sets, playing the "crack out" game with third-party encapsulated coins, and the dangers of online auctions and coin doctoring.

1,200 consumer protection caveats give you the most candid advice on how to buy and sell coins profitably, whether it's a sleeper found on the bourse or a multi-million dollar rarity seen at auction. Detailed photographs of coins with genuine and difficult-to-detect artificial toning give you unprecedented side-by-side comparisons.

Illustrated with more than 260 state-of-the-art digital color and black and white images of coins, this 400-page guide packs a powerful, one-two punch. It combines a thorough update of earlier editions of *The Coin Collector's Survival Manual* with another of Travers' seven acclaimed books, *How to Make Money in Coins Right Now*. Both were bestsellers in their own right, and now both are available in a single, updated and timely volume. Among the topics covered in the new mega-book:

- Coins overgraded by grading services (text page 79, color photos insert page 13).
- How you can capitalize on the gyrations of gold prices when buying rare and generic gold coins. What specific coins you should buy when gold is moving up, and how to minimize losses when gold prices are falling (page 157).
- Extraordinary insights and secrets of crack-outs and getting lucrative upgrades from third-party grading services. Well-known dealer Jim Halperin tells how he made millions in profits by resubmitting coins and expands his secret list (page 140).
- Exposing the pitfalls and avoiding the perils when buying coins through online auctions (page 212).
- Detecting altered, counterfeit and "doctored" coins (page 126).
- How the popular registry set programs have changed the numismatic market, and how to use registry sets to your advantage (page 187).
- Knowing when to buy, when to sell, and when not to do anything (page 251).
- Comprehensive discussions by leading experts about taxes and tax consequences on buying and selling numismatic items, including record keeping, estate planning secrets, retirement plans and in-kind exchanges (page 284).
- Security issues now facing the most advanced collectors and investors after 9/11 and natural disasters, such as Hurricane Katrina (page 318).

This is the book about the coin business "you can't afford to be without." *Newsweek*

"Should be read before a single coin is bought - and read again and again!" *Coin World*

"...if followed closely, it should help [you] do far more than just survive; it should point the way to prosperity." *The New York Times*

"A significant contribution to the consumer protection literature...must reading for any potential investor who believes it is better to buy a book first than to have to hire a lawyer later." Barry J. Cutler, former Director, Federal Trade Commission Bureau of Consumer Protection

Now you can survive and make money in coins right now!

ANR

GETS GREAT
REVIEWS!

FROM THE NUMISMATIC PRESS ABOUT
OUR SALE OF A 1796 \$2.50 FOR \$1.38 MILLION:

"The results indicate that there is extremely strong demand for gold coins dated before 1808, and that a well detailed catalog of an impressive collection, along with excellent publicity, attracts very serious bids." Gregory L. Reynolds, Numismatic News

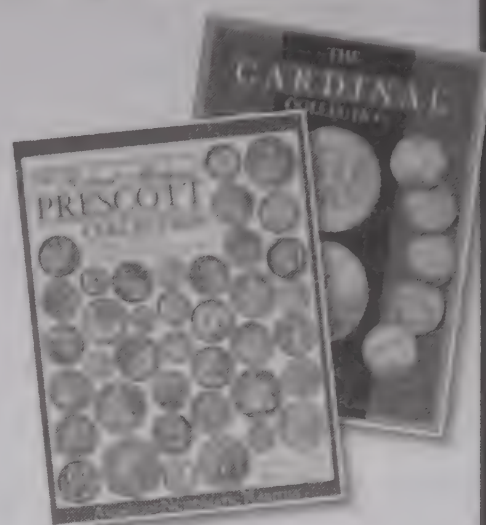

FROM COLLECTORS ADMIRING OUR CATALOGUES:

"The Cardinal Collection catalog is one of the finest auction catalogs ever produced. It is a beautiful and scholarly presentation, and a worthy addition to any numismatic library."

"If I could only receive catalogs from one auction house, ANR would be it."

"ANR catalogs are a perfect combination of sound research and accurately described coins. They are the best in the business."

"Most catalogs, I just look at my areas of interest, but ANR catalogs I browse from cover to cover."

FROM PRESENT AND FUTURE CONSIGNORS:

"The returns from the auction so far exceeded our expectations we were all a bit overtaken!"

"ANR is top notch. I have used them twice in as many years and everything was perfect."

"If I ever sell my collection, ANR would absolutely be my choice!"

SUPERIOR GALLERIES OF BEVERLY HILLS GUARANTEES THE BEST AUCTION RESULTS!

"Frankly, I can't imagine selling a valuable collection without a guarantee from the auctioneer. After all, a rare coin collection is a significant asset, and if an auctioneer is telling you that they can do a good job selling it, then they should be willing to guarantee their work. That just strikes me as the fair thing to do."

Silvano DiGenova, CEO Superior Galleries of Beverly Hills

guarantee

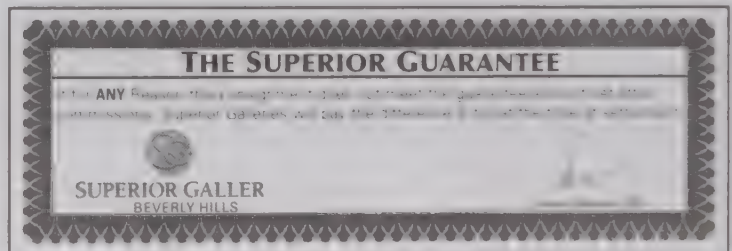

1. guar•an•tee (noun). A promise or an assurance, especially one given in writing, that attests to the quality or durability of a product or service.

If you are considering selling your rare coins, then I'd like to make you a guarantee that will remove the guesswork and uncertainty from the auction process for you. If you consign to a Superior Galleries of Beverly Hills auction, I guarantee that your coins will sell for more money than any other auctioneer's guarantee. What's the catch? None. Just show me your coins, and if I believe that they are worth more (which is almost always the case), I will back up my opinion with a written guarantee that you will realize my higher estimate in a Superior Galleries of Beverly Hills auction.

Let's face it...auction firms don't like to talk about guarantees. They love to discuss "estimates", and most firms will give highly "optimistic" estimates in order to entice consignors to do business with them. However, there is a world of difference between an estimate and a guarantee, and that is the difference between Superior Galleries of Beverly Hills and its competitors.

When you consign with Superior Galleries of Beverly Hills, we will tell you exactly what your coins will sell for, and we will back up our evaluation with a simple, rock solid, written guarantee that you will achieve the results that we promise, or more.

So ask your auctioneer if they will guarantee the results that they tell you they can deliver. If they hesitate, equivocate or have to "get back to you on that", then give us a call. You'll find our candor, expertise, and our straightforward way of doing business to be refreshing and rewarding.

CGA

Currency Grading and Authentication

CGA has been formed in response to demand from collectors and dealers for an impartial third party grading service, dedicated to serving the needs of the paper money collectibles industry.

Our goal is to tailor our services to the demands of the market. To educate the public about this exciting collecting field, and enable dealers to reach out to collectors who otherwise would have trepidation in purchasing uncertified bank notes.

CGA... the Original and First Currency Grading Service

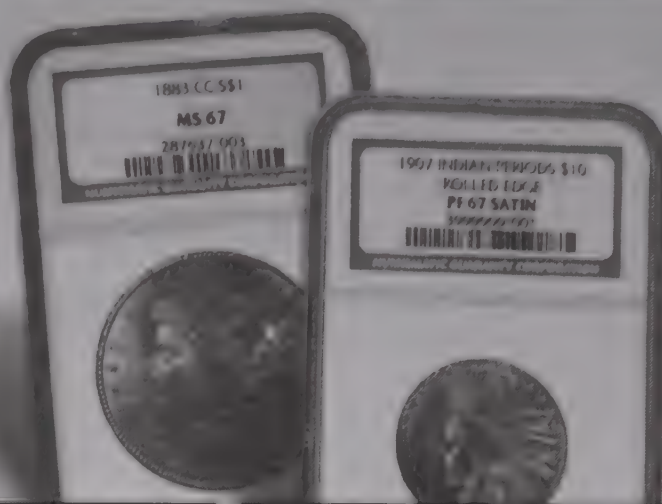

When Jay Parrino purchased the Binion hoard of 100 \$10,000 bills (one million face value) he had them graded at CGA. When the world's most valuable note (\$1,000 Watermelon F-379b) came to market, CGA was entrusted with authentication and grading. When a local coin shop purchased several \$1 silver Certificates (F-237) recently, CGA was awarded the opportunity to grade them.

Whether your notes are worth millions or just pocket change, CGA has the experience, the expertise and the consistency to help market your inventory or collection. CGA brings liquidity to the market place with superb third-party grading.

In a few short years, CGA has graded and been entrusted with over \$250 million dollars worth of collectable US Currency.

Your Rare Coins — ICG's Rare Talent A Winning Combination!!

Keith Love
ICG's Senior Grader

Keith has been in the rare coin business for more than 20 years as a top wholesaler, PCGS grader, and finally ICG's founder and CEO. Keith co-created and has taught the ANA Advanced Coin Grading class for more than five years. The ANA calls Keith "A renowned expert."

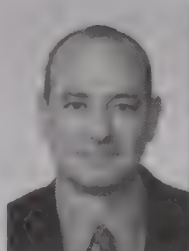

J. P. Martin
ICG's Senior Numismatist

J.P. has been involved in the coin industry for more than 25 years. He worked at the ANA as a grader, authenticator and numismatist for almost 15 years. J.P. has written two ANA correspondence courses on grading and authenticating, starred in the ANA educational videos on grading and authenticating, and taught counterfeit detection to a number of Secret Service agents. J.P. is a rare coin genius.

Michael Fahey
ICG's Senior Numismatist

Michael has spent 25 years at ANACS and has been a grader at a third-party service longer than anyone in history. Michael is a columnist for Coin World, has written for The Numismatist, and has authored ANA Counterfeit Detection reports. Michael will be rejoining J.P. Martin as the two worked together for years at ANACS in Colorado Springs.

Walt Armitage
ICG's Senior Grader

Walt began his coin career more than 25 years ago. In addition to operating his own successful rare coin business, Walt has spent ten years grading at ICG and PCGS and set up the World Coin Grading program at both services. An ICG founder, Walt is one of the most respected numismatists in the world.

Larry Wilson
ICG Grader

Larry has more than 30 years experience in the rare coin industry. Working with Keith Love as a rare coin wholesaler, Larry has become one of the most educated numismatists in the country. Specializing in U.S. Type and Gold, Larry has served as a mentor to many of today's successful rare coin dealers.

James Davis
ICG Grader

Jim started collecting coins 35 years ago and soon figured out he had a true knack for the hobby and started buying and selling coins for profit. He is an ANA Life Member and took his first classes on grading and authenticating coins at the ANA in the early Eighties. He is the founder of the South Bay Coin Club and before joining ICG was the owner of four coin shops in Southern California. Davis enjoys error coins and is an expert in all U.S. coins.

Cameron Kiefer
ICG Grader

Cameron is a former Young Numismatist (YN) of the Year, the American Numismatic Association's (ANA) highest award, given annually to the most outstanding numismatist 21 years of age or younger. He is an active coin grading instructor at The ANA Summer Seminar and at many coin conventions. Cameron is certainly an up-incoming star at ICG and in the numismatic world.

Sue Berg
ICG Grader

Sue has been in the rare coin business for six years. Her discerning "eye" and work ethic has made her an important part of the best team of graders in the rare coin industry.

The **Certified Coin Dealer newsletter** ("**Bluesheet**"), published by the Coin Dealer Newsletter (est. 1963), is the **only** price guide available listing the wholesale Bid levels of coins certified by the Professional Coin Grading Service, Numismatic Guaranty Corporation, ANACS, PCI, ICG, SEGS and other independent grading services. Published weekly, the "**Bluesheet**" reports the highest known sight-unseen Bids on actively traded certified coins in the standard grades of Mint State and Proof. Prices are constantly updated for the most popular series and issues graded by the leading services. Bids for PCGS and NGC are reported every week; Bids for other services are updated monthly. And once each month the **CCDn** also contains Market listings - at no extra charge!

Over the past fifteen years, the certified market has been very active. The volatility that characterized the sight-unseen market has been replaced by more stable

price movements, attracting a new generation of collectors. As our **CCDn CMI** (a weekly **Bluesheet** feature) illustrates, the overall market is **moving higher**. In addition to pricing changes in the market, Bid levels may differ considerably from one service to another.

The **Bluesheet** reports dealer Bid levels for sight-unseen coins. Dealers may pay even more depending upon their needs, but remember, pricing changes are an enduring characteristic of the coin market. Bids can increase or decrease dramatically; without current market information, making informed buying or selling decisions is impossible. You need the **Bluesheet** now!

The Fine Print

The ICG Seven Day Guarantee - ICG will award you a certificate redeemable for double the quantity of coins submitted if we do not perform on our current guaranteed turnaround time of seven days on 15 Day Service and Economy Service submissions. Example: If your 10 coin Economy submission turnaround time is eight days, ICG will send you a certificate good for a free 20-coin Economy submission. Guarantee only applies to regular U.S. coin submissions, which excludes currency, error coins, world and ancient coins. "Days" are ICG working days and exclude weekends and holidays. Turnaround time does not include shipping time and is measured from the day ICG receives your coins until the day ICG ships them back. Nothing in this offer precludes or supersedes the terms and conditions on the ICG grading submission form.

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

2006 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only \$325 - well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both standard Zip Code order or Presorted for - Basic Bulk Rate mailings (you can save more than \$425 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

Every Numismatic Library needs copies of the latest addition to the
COIN DEALER newsletter family of publications:

The Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - \$2.50 each • 11-25 issues - \$2.00 each • 26 & over - \$1.50 each

Or, you can purchase **complete sets** of back issues for really dramatic savings:

Complete set of the weekly *Coin Dealer* newsletter (*Greysheet*)

from June 14, 1963 to December 23, 2005, now includes 2,169 issues.

At \$1.50 each this would normally cost \$3,254, but a complete set

is only \$2,200.

Complete set of the monthly *CDN Monthly Supplement*

(formerly the *Monthly Summary*)

from August 1976 to December 2005, now includes 352 issues. At \$1.50

each this would normally cost \$528, but a complete set is only \$405.

Complete set of the *CDN Quarterlies*

from January 1992, to December 2005, now includes 168 issues, a

complete set is only \$185.

Combined weekly *CDN (Greysheet)*, *Monthly Supplement* & *Quarterlies*

now includes 2,689 issues, and extra savings at only \$2,675.

Complete set of the weekly *Certified Coin Dealer* newsletter (*Bluesheet*)

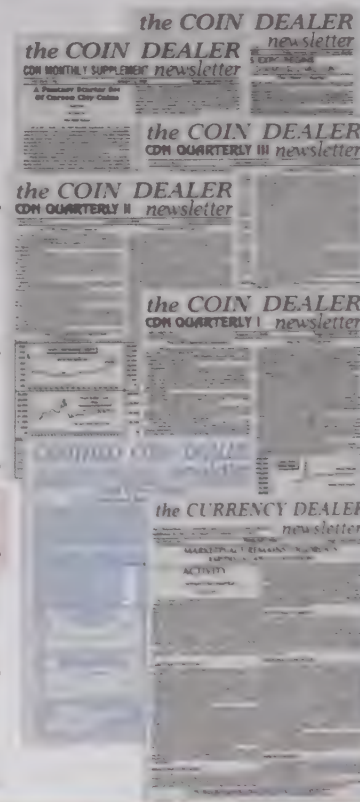

from August 22, 1986 to December 23, 2005, now includes 947 issues.

At \$1.50 each this would normally cost \$1,421, but a complete set is only ... \$1,000.

Complete set of the monthly *Currency Dealer* newsletter (*Greensheet*)

from September 1980 to December 2005, now includes 304 issues.

At \$1.50 each this would normally cost \$456, but a complete set is only \$350.

3,940
Newsletters

For the most complete numismatic pricing library possible, you may order a
COMPLETE set of all of the Back Issues listed above for only \$3,675.

Coin Presentation *Redefined*

*Just one of the ways
our rare commitment is
redefining the hobby.*

The NGC Multi-Coin Holder

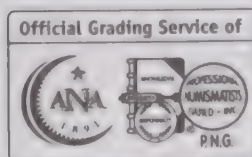

The NGC Multi-Coin Holder is the premier presentation option for sets of certified coins. Any imaginable combination from two to five coins can be encapsulated within one holder, and six-coin holders are also available for Proof and Mint Sets.

Made from the same state-of-the-art plastics as the NGC's single-coin holders, the NGC Multi-Coin Holders are sonically sealed, tamper-evident, and include a security hologram. Each coin is given its own certification number, making coins eligible for individual inclusion in the NGC Registry.

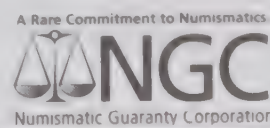

Coins already certified by NGC can be submitted for inclusion in an NGC Multi-Coin Holder for \$5 per coin. The fee for raw coins is based on our standard grading fees per coin, and there is no additional charge for encapsulation in the NGC Multi-Coin Holder.

"I would certainly recommend you and your firm to those who want old-time service and fair prices."

Dale Larsen is a coin collector, turned rare coin dealer. "I've walked a lot of miles in the collector's shoes and I know how he or she likes to be treated," Larsen says. His specialty is coins with "great eye appeal" and he "loves dealing with the public."

SPECTRUM

NUMISMATICS INTERNATIONAL

Dear Mr. Larsen.

I want to thank you for all your help in my recent transaction with you.

I had written to other companies to sell my coins but you not only offered the highest prices, but gave me such individual attention that you were always available when I needed to talk to you.

I would certainly recommend you and your firm to those who want old-time service and fair prices.

Sincerely yours,

A.J.D.

The Coin Dealer Newsletter

has been serving dealers for (please check):

□ 43 □ 30 □ 14

If you checked all three choices, you are correct. The *Greysheet*, as most numismatists know, was started in 1963, and has been the market's leading (and only!) source of current, wholesale pricing information since then. Over the decades, the listings have been tremendously expanded and improved to provide subscribers with the most *accurate* market information that money can buy.

But the *Greysheet* is more than just the *weekly CDN*. The **CDN Monthly Supplement** has been an important part of our subscription package since 1976, with its monthly listings of so many important series by date. And starting in 1992, the **CDN Quarterly** now brings *CDN* subscribers full date, multiple-grade listings on every regular issue U.S. coin not already covered in the weekly and monthly issues. Imagine, every U.S. coin now receives our *independent, unbiased* attention, all so that you can make informed buying and selling decisions.

A Fantasy Starter Set Of Carson City Coins

By [Name]

The Carson City Mint was one of the most interesting and productive of the United States Mint's branches. It was located in Carson City, Nevada, and operated from 1869 to 1893. During its short history, it produced a wide variety of coins, including gold, silver, and copper. This issue of the newsletter provides a detailed look at the Carson City Mint and its products, including a list of the coins it produced and their current market values.

BUYING U.S. MINT PRODUCTS

1936 to 2005

Have you purchased products directly from the U.S. Mint such as silver and gold commemoratives, Proof silver and gold eagles and platinum eagles, multiple coin sets, Proof sets, Mint sets, Eisenhower Dollars, etc. over the years?

Do you find that you are ready to sell your collection due to lost interest, kids in college, no one in the family interested in your collection, or for any other good reason? Well for what ever reason it will benefit you to contact John Maben Rare Coins. We can assist you in making one nice, easy transaction for a very fair current market price.

John Maben Rare Coins is looking for quantities of excellent condition, properly stored "one owner" U.S. Mint products and is willing to pay the price for your collection of these items!!!

Here are just a few reasons why you should choose us when selling:

- We are one of the largest wholesalers and fastest growing retailers of U.S. coins in the country, and are well known for our reputation and honest dealings.
- Sell where the dealers sell. Ninety percent of our purchases are from other dealers. Many of them buy the coins they sell us from people just like you.
- John is a life member of both the American Numismatic Association and the Florida United Numismatists, and is a proud member of the prestigious Professional Numismatists Guild.
- With substantial financial resources and industry clout, JMRC is an active and major buyer of virtually all U.S. coins. Our extensive contacts throughout the dealer, collector, and investor community combined with our uncommon level of expertise enable us to pay prices that few, including the largest companies in the business, can compete with.
- No hype, no games; just send us your coins for an instant offer and an immediate check.

If you live anywhere in the U.S., it will pay you to get our offer. We suggest that you first contact us to discuss your holdings, and then simply follow these easy instructions for sending us your coins.

Instructions for shipping your coins to JMRC:

1. Enclose a detailed list of the material in the package, and keep a copy for your records.
2. Make sure your name, address, e-mail (if you have one), and day/evening phone numbers are enclosed.
3. We strongly suggest shipping only by U.S. Postal Service Registered Mail. This is the most reliable and SECURE way to ship coins. Insure the package for an amount that you consider to be adequate in the highly unlikely event of a loss by USPS. Your local post office can assist you in obtaining the packaging requirements. Registered mail will generally take between two and four days to get to us.
4. We will call you the day the package is received. Your coins are fully insured while in our possession.
5. Our offer is usually made within 24 hours of receipt. On larger collections, the process can take slightly longer, but we will advise you if additional time is needed.
